

## Manufacturing Technology (vocational second Five-materials) machinery Professional Series

By -

paperback. Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 254 Publisher: Nanjing University Pub. Date :2011-08-01 version 1. Manufacturing Technology is a multi-specialty mechanical engineering profession in the basic course content integrated from the core of practical. covering the cutting principles. mechanical manufacturing technology and equipment to build a more systematic basis for the mechanical manufacturing technology knowledge. Book is concise easy to learn. and practical. The book is divided into eight chapters. including the basics of metal cutting. metal cutting methods and equipment. mechanical formulation process planning. machining quality. positioning and clamping the workpiece. fixture design and machine design. manufacturing technology. modern machinery Introduction and basic mechanical assembly process. Manufacturing Technology is a higher vocational education. machinery and materials in recent Mechanical Engineering. but also for related professional engineering and technical officers. Written by Li Zengping chief editor. Contents: Chapter 1. the basics of metal cutting 1.1 Overview 1.2 tool geometry and tool materials. tool geometry 1.2.1 1.2.2 1.3 metal cutting tool during material deformation coefficient 1.3.1. BUE chip and 1.3. 2 cutting force and cutting temperature 1.3.3 1.3.4 Thermal cutting tool wear and tool life...

### Reviews

*A top quality publication along with the font used was intriguing to read. I really could comprehend everything using this written e book. Its been designed in an remarkably straightforward way and it is only after i finished reading through this publication by which basically altered me, modify the way i believe.*

-- Cathrine Larkin Sr.

*Very useful to all of group of people. I actually have read through and so i am certain that i will planning to study yet again once again down the road. I am just very easily can get a satisfaction of looking at a created book.*

-- Mark Bernier
